

PMP Examination Information

The PMP examination is comprised of 200 multiple-choice questions. Of the 200 questions, 25 are considered pretest questions. Pretest questions do not affect the score and are used in examinations as an effective and legitimate way to test the validity of future examination questions. All questions are randomly placed throughout the examination.

No. of Scored Questions	No. of Pretest (Unscored) Questions	Total Examination Questions
175	25	200

Computer-based testing (CBT) is the standard method of administration for PMI examinations. Paper-based testing (PBT) is available under limited circumstances (refer to the Examination Administration section in this handbook for more details).

The allotted time to complete the computer-based examination is four hours.

Allotted Examination Time
4 hours

It may take some candidates less than the allotted four hours to complete the examination.

There are **no scheduled breaks** during the exam, although you are allowed to take a break if needed. If you take a break during the exam, your exam clock continues to count down.

The examination is **preceded by a tutorial and followed by a survey**, both of which are optional and both of which can take up to 15 minutes to complete. The time used to complete the tutorial and survey is not included in the examination time of four hours.

Item Development

PMP examination questions:

- are developed in accordance with the ISO/IEC 17024 standard
- are developed and independently validated by global work groups of PMP certification holders;
- are referenced to current project management titles, which include but are not limited to PMI's global standards;
- are monitored through psychometric analysis; and
- satisfy the test specifications of the PMP Examination Content Outline.
