

## PMP Exam Report & Passing Score

### Exam Policies and Procedures

#### Examination Report

Upon completion of the computer-based examination, you will receive a printed copy of your test results. In addition to the overall pass/fail status, important diagnostic information on your performance is provided for each domain. This information provides specific guidance for both passing and failing candidates.

Candidates who take a computer-based examination receive the exam report at the test center the day they sit for the examination. You can also access your exam report on the online certification system no later than 10 business days after your examination date. You will receive an email notifying you when your exam report is available online.

Candidates who take a paper-based examination will NOT receive the exam report the day of the exam. You will be able to access your exam report on the online certification system approximately six to eight weeks after your examination date. You will receive an email notifying you when your exam report is available online.

#### Establishing the Passing Score

The passing score for all PMI exams is determined by sound psychometric analysis. PMI uses subject matter experts – project professionals from around the world and many different disciplines – to determine how many questions you must answer correctly to pass the exam. Each scored question on the exam is worth one point, and your final score is calculated by totaling the points you have earned on the exam. The number of questions you answer correctly places you within one of the performance rating categories you see on this report.
